

DS Character Sets, FAQ, #1

Characters come in two Varieties. The first type start life as a shape shifter of a particular race. The second type start as just “people”. These people may acquire a single Latent Shifter card at any point. As the character develops they may at some point acquire a specific Latent Shifter card and become a full fledged Shape Shifter.

We added the “just people” to the game to represent the allies and agents that have become Valarians due to their faith in the Valarian program. Players are, of course, welcome to play one of these as a character, but they must expect to be weaker when compared to the original Shape Shifters. Non-Shifting characters are meant to be weaker than full shifter characters. They are not meant to be balanced characters.

Additional questions will be answered as they arrive.
